

## Comment Card – OVRP Concept Plan Update

---

Thank you for your interest in the Otay Valley Regional Park (OVRP) Concept Plan Update.

The Concept Plan is a policy document that provides direction and guidance in park land acquisition and development efforts, and the evaluation of proposals that may affect the park. The 1997 Concept Plan described potential trail alignments, active recreation nodes, nature centers, overlooks and staging areas within the OVRP. In the almost 20 years since the original Concept Plan was developed, much of the land use in the Otay River Valley has changed. This update will reflect existing conditions, as well as existing and future recreational needs.

*If you have any comments regarding the changes that have occurred in the OVRP or suggestions for future implementation, please note them here for consideration in this update.*
